DETAILED ACTION

Response to Amendment

The amendment filed on 6/19/2007 has been entered.

Allowable Subject Matter

Claims 1, 4, 5, 7-11 and 13-22 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record does not teach or suggest the invention of a discharge lamp device having an external electrode unit including external electrodes arranged intermittently at plural places in a direction of a tube axis, the external electrode unit formed as an electrode member incorporating the external electrodes and the engaging part so as to be shaped to cover half or more of the arc tube in a circumferential direction, a dielectric member interposed between the arc tube and the external electrode unit, and the external electrode unit being elastic so as to press the dielectric member against the outer wall surface of the arc tube so as to be held around the arc tube by itself, along with other claimed limitations. Claims 4, 5, 7-11 and 13-22 are allowed due to claim dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
